Subject Mukti Site Visit Bansidi and Surroundings

05/20/2008 11:47 PM

Please respond to

mukti-bankura@googlegroups.com

Dear All,

Mr. Joydeep Mondal and Mr. Sushant Kataria visited our Bansidi site on 19th May 2008.

We had a wonderful experience on their visit because they not only took note of the events and proceedings but also offered necessary suggestions.

Initially they took note of the ongoing projects i.e the Book bank project and the TSS project. This followed an interactive session with some students who have been benefited by the ongoing projects. Many students informed him about the help the projects have been to them. Some also narrated the problems they are facing and better ways their problems could be solved.

Some students came with a view that a Library in the area could serve their needs lot better because it's not always possible to promptly react to the need of books of the students where a library could come in handy.

The visitors were also informed about the willingness of a particular person to donate his land for the purpose of the library.

The ongoing proceedings followed a visit to the near by high school which was unfortunately closed due to the summer vacation. The visitors took a trip round the Bansidi village and inspected the way of life out there. They also chatted with some women helped in ligation.

Overall it was a fair experience moving with them.

Kudos to Mr. Joydeep Mondal and Mr. Sushant Kataria for taking pain to visit the area.

In the end I would also like to ask Sankar da to look into whether the matter that have been put forward to the visitors like the library project and the increment in the students for the TSS project work out well.

May the Mukti dream come true.

Thanks and regards,
Jibesh Patra
