

To

The Chairman of MUKTI

Dear Sir

With most respectfully I Beg to state that I am Bishu Kumar Bar ,resident of kkdwp , student of Saroj Mohan Institute of Technology .I am belonging in very needy family .So sir I have suffered too much problem for continuing my study . On that time I had need a financial support for my study purpose .So I was hopeless about my future. But in that situation with many people one organization also give me a dream of light in my life by giving financial support and the name of this organization is MUKTI.

I got the scholarship from your organization i.e. MUKTI for three years which help me very much to complete my graduation in engineering field. This scholarship help me some times to buy some books or to pay registration fees etc .That means it solve maximum financial problem. If this organization (MUKTI) did not give me the scholarship then it was very tough to complete my graduation .Not a single mument I will forget the help of the MUKTI throughout my life.

Thanks to the chairman and also members of MUKTI for help me. I also want to be a member of MUKTI but I am now a job seeker. When I will establish in my life I also will help to some others people to bring the success to their life. I also will take some steps to develop our society. I belief myself and I think this great chance should come to my life very soon.

Yours faithfully

Bishu Kumar Bar
