Respected Sponsor Mr. Anjam Gupta,

Hope you are well and healthy by the bliss of God. Sir, I am very grateful to you. I have received your donating money on 7th January 2021. It is helping in my study process very much.

Sir, I am reading in class XI in science stream in Raidighi SCK High School (H.S). I want to be a good doctor in future. I have a keen interest in cardiology. So, I have decided to sit for NEET (National Eligibility Cum Entrance Test) medical exam.

When I read in class II, my father died of cerebral brain stroke. After this incident, our life was totally changed. Now, I live in my fatherhouse with my mother. My mother has no income source. My uncle looks after us because my grandpa and grandma are old aged. My mother operates all works of ^{an} house everyday like a maid servant. My uncle is a shopkeeper.

The cost of science study is too much. I have managed my study till madhayamik prapony but now, my uncle is denying to give too cost for science study. Besides, I want to sit for NEET. So, I have to operate a parallel syllabus with H.S. The tuition fees and cost of books are the main reason of my problem.

Your donating money is like oxygen for me and you are God for me. I have purchased

three books for NEET by your money. But Sir, I need more books. Sir, now I am feeling safe.

I salute you and your Mukti Foundation for innovative work and helping students, poor in the society. It is just like a magnificent work. The poor students need you to continue their study.

Sir, I'm always interested in social work. I want to give the society something best as per as I can. In future, I shall help poor like you.

Sir, please stand beside me. In this moment, I ~~am~~ need a financial support to achieve my goal. Your any advise will essential for me. If I have any mistake in this letter, please excuse me. Before ending of this letter, I want to give you a lot of thanks and regard. I am also praying a long live of Mukti Foundation.

Your obediently
Debaraj Halder
