

TO,

Srijan Reality Pvt. Ltd.

Respected Sir/Madam,

I am writing this letter in order to provide my appreciation and gratitude towards the help that you have provided me in order to complete my studies and be a part of Jadavpur University. I, Krishna Kanta Pal am a student of Jadavpur University 4<sup>th</sup> Year. I am pursuing B.E in mechanical engineering. As I belong to a poor background, I wouldn't have been able to be a part of this university and continue my studies without your exceptional support. I really want to thank Srijan Reality Pvt. Ltd. from the depth of my heart for providing the financial support I needed to become a good engineer and serve my country. I am really grateful to you and I would always remember the support which I received from your organization. Words will not be enough to show my gratitude but I will ensure that I make a difference. I won't let the opportunity and support go to waste and I will give my best towards my country and it will be only possible because of your organization.

Thanks and Regards,

Krishna Kanta Pal
