

To  
Ms. Ruchira Mandant,  
MUKTI,  
Ma'am,

I hope you are fine. It's always a pleasure to write you.

Recently, I am continuing Masters in chemistry from 'School of Chemistry' (University of Hyderabad). I have joined the course in the month of November, 2022. My first semester examinations got over few weeks back and the second semester is running now. Here, the classes are very regular, more attentions are paid to the lab works, regular basis internal exams are held, overall I am learning so so much and day by day, I am feeling more interested in research. I always admire you and MUKTI for believing me and keeping the sponsorship on. It helps me a lot.  
THANK YOU MUKTI.

Lots of regards.

Yours affectionately  
Priyanka Singh &
