

To,
Mr. Niladri Nath Bagchi

Respected sir,

I am a 3rd semester student of Post Graduation in zoology at “Dinabandhu Andrews Collage” under Calcutta university. The exams of my 2nd semester have just finished at last week. My class will start from next week.

I have been receiving the scholarship since 2017. I am very thankful to you and team “MUKTI” for giving me this opportunity. It helps me a lot to handle the expenses of books and collage fees. Your encouragement gives me mental support to move forward without any fear. You inspire me to become a better human being and to do something good for our society. With your encouragement I am teaching some students and it became my profession now. I am very grateful to you and to team “MUKTI” also for giving me the chance and introduced me with such supportive and encourage people. I want to request you to keep blessing and showing me the right path of the life. I am also requesting to keep supporting me financially with the scholarship.

Thanking you.

Your sincerely,
Payel Mondal
