

Dear Mr. Advocate Now

I hope you and your family are doing well and having nice days by God's grace. Me and my family are also safe and sound.

Now I am studying in 'Critical Care Technology' course (1st year) at 'College of Medicine and J.N.M Hospital', Kalyani. Beside I am taking 'NEET' preparation to become a doctor so that I can serve the needy people of my locality. I want to pursue my dream as a 'Anesthesiologist'.

My hobbies are gardening and reading short story book. I love to play football. In my leisure time I listen music and watch movie.

After being established, I wanna help needy students so that they can overcome their adversities and become a great one.

Thank you and special gratitude to you from my side and from my family. I am grateful to you as well as 'mukti' also. I always pray to God for you and your family's good health.

Yours lovingly,
Alepanjan
